Kensington

Slimblade™ Bluetooth® Trackball Mouse

idea: Finally, a mouse that works everywhere.

72281EU

Product Description

The Kensington SlimBlade™ Trackball Mouse works where other travel mice can't. The trackball gives you control even when there's no room to move a mouse, then switches to mouse mode with the push of a button. Bluetooth® connectivity offers up to 10m of range and doesn't use up a USB port.

Features

- Integrated 360 scrollball provides trackball functionality when a flat surface is not available
- Laser mouse for maximum sensitivity and cursor control
- Never worry about turning your mouse on or off again - your mouse goes into sleep mode when your laptop does
- Trackball mode gives you cursor control in tight spaces and on any surface
- Bluetooth® wireless technology for an instant connection--leave your USB ports available for other devices
