

Kensington

Wireless Presenter - Nano Receiver

Present like a pro.

K33373EU

Product Description

Present like a pro with the Wireless Presenter. Designed for professionals, this remote allows you to focus on making an effective presentation, harnessing a reliable wireless connection and natural controls. The intuitive four-button layout lets you easily navigate forward and back within your PowerPoint or Keynote slides, while the other two buttons let you hide your screen and play a slideshow*. The wireless nano receiver conveniently stores inside the battery compartment when not in use.

Features

- Intuitive four-button layout lets you easily navigate forward and back within your PowerPoint or Keynote slides, while the other two buttons let you hide your screen and play a PowerPoint slideshow.
- The laser-free design is an ideal solution for locations where laser devices are not permitted.
- Roam the room with ease during your presentation. Plug-and-play 2.4GHz wireless connection with 20m delivers secure, reliable performance through a compact USB nano receiver. No driver required.
- Government-grade AES 128-bit encryption protects sensitive data from potential hackers.
- Battery compartment also provides a handy internal storage space for the wireless USB nano receiver when not in use. Each receiver and presenter are uniquely paired to prevent interference.
- On/off switch lets you turn the presenter off to conserve battery power when not in use.
