

Kensington

SD5550T Thunderbolt™ 3 and USB-C dual 4K docking station – Windows and macOS

The perfect dock for maximum productivity and compatibility.

K38131EU

Product Description

At last, the perfect dock for maximum productivity and compatibility has arrived. Innovatively engineered to support mixed computing environments with high transfer speed requirements, the Kensington SD5550T Thunderbolt™ 3 and USB-C dual 4K docking station plugs into the power of one – one dock for more power, more bandwidth and more compatibility. Optimise your productivity with one of the first docks to deliver the unrivalled transfer speeds of Thunderbolt 3 (up to 40 Gbps) while also supporting USB-C laptops (up to 10 Gbps). Ideal for hot-desking, 4K workspaces, video editing, graphic design or content creation, the SD5550T provides more speed, more pixels, more power and more possibilities.

Features

- Best for: Thunderbolt 3, Thunderbolt 4 and USB-C Laptops and Monitors that support up to 4K
- Connection Technology: Thunderbolt 3 & USB-C (Thunderbolt 4 laptops supported at Thunderbolt 3 features)
- Power delivery: Supports USB-C PD 3.0 (60 W of laptop charging)
- Compatibility: Windows 10 or above, macOS 10.14 or above
- No. of monitors supported: 2 (M1/M2 Base Chipset MacBook supports only a single external display.)
- Video ports: 2x DisplayPort
- Maximum resolution supported: Thunderbolt 3 – single monitor: 4K (4096x2160@60Hz) or dual: 4K (4096x2160@60Hz) USB-C Alt Mode – single monitor: (4096x2160@30Hz) or dual: (1920x1080@30Hz). M1/M2 Base Chipset MacBook supports only a single external display.
- Plug & Play installation without the need for drivers or downloads.
- System requirements: Compatible with laptops equipped with Thunderbolt 3 or Thunderbolt 4 and USB-C ports supporting Alt Mode; not backwards compatible with Thunderbolt or Thunderbolt 2. Supporting up to 40Gbps total bandwidth for Thunderbolt 3 or Thunderbolt 4 laptops and up to 10Gbps for USB-C laptops.
- Warranty: 3 Years
- Original Apple M1 - While this docking station will work with the original M1 MacBook, only a single video output is supported. For multi-monitor support on your original M1 MacBook, see our Hybrid USB-C DisplayLink docking stations (ex: SD4700P, SD4750P, SD4780P, SD4900P, etc.) or USB-A DisplayLink adapters (DisplayPort K33989, HDMI K33988, DVI-I K33974). NOTE: Newer Apple devices (M1 Max and M1 Pro, etc.) are not impacted and support multiple monitors without any issues on Thunderbolt docking stations.
- Optimised for your Windows 11 docking station needs, including support for Snap Layouts and Snap Groups.
