

ComboSaver® Combination Laptop Lock - Master Coded

K67710US

Product Description

Eliminate the risk of forgotten combinations. The Kensington ComboSaver Master Coded Combination Notebook Lock provides both combination and master key access when used in conjunction with a ComboGenie (sold separately). The ComboGenie serves as an electronic "opener" and creates a proprietary authentication process for secure combination recovery ideal for situations where a large number of combination locks need to be administered by a person who is the authorized master key administrator.

Features

- Free Register & Retrieve™ on-line key and combination code registration for secure key replacement or code retrieval
- Locks into the standard Kensington Security Slot found in 99% of notebooks, and many flat panel monitors, desktops, projectors, printers, docking stations, tablet PCs, and other devices
- Gives end-users the ability to set personal combinations that they can remember
- Allows authorized administrators the ability to unlock or reset locks at any time
- SAFE tested for greater security and peace of mind
- Used in conjunction with K67711US ComboGenie®
- No key to lose, forget or misplace
