

System Four Bind, SureBind®

9707055

Product Description

This finisher is ideal for high-volume SureBind® projects. Pair it next to a heavy-duty punch to increase your output. The flat surface and pressure bar hold documents (up to 3" or 750 sheets) securely in place while an internal heated knife trims and seals the spine. SureBind® spines also work with sheets punched in the CombBind® pattern. SureBind spines lock pages permanently in place without visible holes, tapes or fasteners.

Features

- Electric push-button operation
- Ready light indicates when binding is complete
- Built-in debind function lets you revise sheets
- Binds documents up to 14" in length
- Adjustable paper alignment guide

Specifications

- **Binding** SureBind
