

Kensington Wireless Presenter (without Laser)

K33373EU

Product Description

Own what the professionals use to control of their presentations. The Wireless Presenter is designed without a laser pointer so it can be used for presentations in locations where lasers are not allowed. With a 4-button layout, you can easily go forward and back on your PowerPoint® or Keynote® slides, while the other two buttons let you hide your screen and play a slideshow. With a 65-foot range, you can remain in control of your presentation while you roam the room.
