

FP220W Privacy Screen for 22" Widescreen Monitors (16:10)

Keep Your Business, Your Business

K55786WW

Product Description

Trust Kensington, the choice of IT professionals, to help protect the sensitive information on a monitor and reduce the chances of wandering eyes viewing confidential data. FP Series Privacy Screens limit the field of vision to +/- 30 degrees so a person off to the side only sees a dark screen. They are easy to install with either the included frameless tab holders or double-sided tape. The reversible privacy screens also use an anti-reflective coating to reduce glare, and they filter out harmful blue light by up to 30 percent.

Features

- Limits viewing angle to +/- 30°, hiding personal or confidential information from anyone trying to look from the side
- Reduces harmful blue light by up to 30%
- Can be installed using the included frameless tab holders or double-sided tape
- Anti-reflective coating reduces glare and improves clarity
- Reversible with matte and glossy viewing options. One side has a matte finish to reduce glare and fingerprints. The other side is glossy and provides a clearer view of the monitor. The anti-glare/matte surface uses a special antimicrobial film coating that prevents mildew and bacteria growth, which can cause stains and odours on the film.
- Protects the monitor screen from scratches and damage
- Cleaning cloth included
- Special film coating (matte side only) prevents mildew and bacteria growth, which can cause stains and odours on the film.
