### Features

- Slim profile made especially for ultra-thin and 2-in-1 laptops. Tested and approved by Dell.
- Does not block valuable ports, allowing for full use of laptop's ports while attached.
- Won't raise the laptop off its surface and cause it to wobble, allowing the laptop to lie flat and stable.
- Kensington locks are verified and tested. Each lock is precision engineered to meet or exceed rigorous industry standards for strength, physical endurance and mechanical resilience.
- 1.8m (6') carbon steel cable delivers the same level of cut-resistance and theft-resistance as thicker cables. Special hinges create great freedom of movement, eliminating awkward angles and allowing you to insert your key with complete ease.
- The 5mm keying system is common across all of Kensington's latest locks, so there's only one keying system to manage.
