HIGHLY METALLIC, SHIMMERING COLOURS

Derwent Metallic Pencils offer high lustre and shine effects in pencil format. Suitable for a wide range of fine art or craft projects, they are accurate to metallic colours of the real world. Perfect for lettering, scrapbooking and adding accents.

Available in an extended range of 20 metallic colours, including eight new colours.

“As a pencil artist I love the control the pencil can give, combining this with the beautiful metallic pigment takes my creativity to the next level. Colours pop in this contemporary modern range with shades of gold and silver that you don’t find anywhere else.”

Judith Selcuk - Professional Artist

DERWENT

### **PARTICULARLY EFFECTIVE ON DARK PAPER**

The striking luminosity of this range is suitable for light and dark substrates, but works particularly well on black paper.

This refreshed range replaced the incumbent Derwent Metallic Pencil collection in 2019, to mark 20 years since the original launch. The core was changed to a non-watersoluble formulation for the re-launch based on consumer insights and preferences.

3

### **BEAUTIFULLY SOFT FOR BLENDING**

Derwent Metallic Pencils feature a soft core formulation, which performs beautifully when blending colours together. They also erase well and layer easily. Use in conjunction with Derwent Coloursoft Pencils on mid-tone or dark paper to add highlights to work.
