HEXAGONAL BARREL FOR ENHANCED CONTROL

Many artists opt for hexagonal barrel colour pencils when looking for enhanced control. Derwent Studio Pencils allow for an excellent grip, required for detailed drawings.

Once one side of the pencil point has been worn down, the pencil barrel can be rotated by one side of the hexagonal shape to quickly provide the artist with a fresh point, without them having to stop to sharpen as often.

WIDE CORE

DERWENT

FIRM, FOR A STRONG POINT

Derwent Studio Pencils are the same in formulation as the Derwent Artists range; offering a firm point that won't break under pressure. Derwent Studio Pencils feature a narrower core.

WAXY TEXTURE

Derwent Studio Pencils have a waxy texture. Colours can be applied in many delicate layers to achieve excellent transparent layering effects.

Useful for more detailed work, particularly illustrations, technical drawings and commercial work.
