BRAND HIERARCHY

DERWENT PROFESSIONAL QUALITY

For professional artists, art students, hobby artists and crafters.

Professional artists seek out the very best quality products to support their art practice. Derwent is their natural partner. Because whilst respecting the rules, we will always rewrite them too. Over 150 years of know-how means no one knows more about making pencils. Derwent is proud to produce the widest range of artists pencils, pens and accessories, to meet artists needs and allow them to keep discovering. Packaging and communications for the Derwent Professional range are appropriately confident and premium, leaving prospective consumers in no doubt that they are investing in professional quality art supplies to support their artistic ambitions.

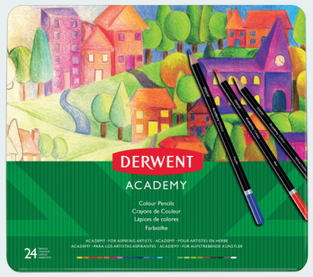

DERWENT ACADEMY

For art students, hobbyists and aspiring artists of all ages to help their creativity flow.

Derwent Academy is an ideal introduction to the world of art, created for aspiring artists and hobbyists wishing to develop and improve their drawing skills.

The high quality product, packaging and communications reflect the changing aspirations of this audience; presenting a high quality, appealing proposition supporting consumers in reaching their goals. All products are easy to use, with a great range of colours and degrees available.

DERWENT LAKELAND

For creative children and junior artists.

This is where the artistic journey begins for our very youngest artists, using colour pencils for the sheer joy of creating something, enabling them to begin to express themselves through art. With Derwent Lakeland colour pencils, the magic and discovery comes from the doing.

This entry-level category retains the legacy name of Lakeland to offer loyal customers the continuation of a familiar brand. The Lakeland pencils and packaging are designed with children in mind with vibrant colours for creativity and expression.

ICONS KEY:

- Water-soluble
- Colour pencils
- Tonal pencil
- Paint pan
- Colour block
- Tonal block
- Active Colour Technology

- Hexagonal barrel
- Block
- XL Block

CONTENTS

DERWENT HERITAGE

With a proud heritage dating back to 1832, we have been manufacturing pencils in the Lake District, UK ever since. With over 190 years of know-how packed into every pencil and art tool, our creative and scientific minds never cease in their quest for new ideas. Obsessing over the highest quality of materials and creating an ever evolving range to meet the requirements of every artist. We will keep pushing our boundaries so that artists can keep pushing theirs.

Unique blend of water-soluble graphite with a hint of colour for dramatic tonal work.

Graphite and colour combine to create this unique formulation of watercolour pencil pigments and graphite. This range is ideal for mixed media work. When used dry, Graphitint provides just a hint of colour but adding water transforms the tint into rich, shimmering shades with an underlying, graphite sheen. Muted colour palette offers warm and cool tones.

0700803

JAKE SPICER

ARTIST RECOMMENDED

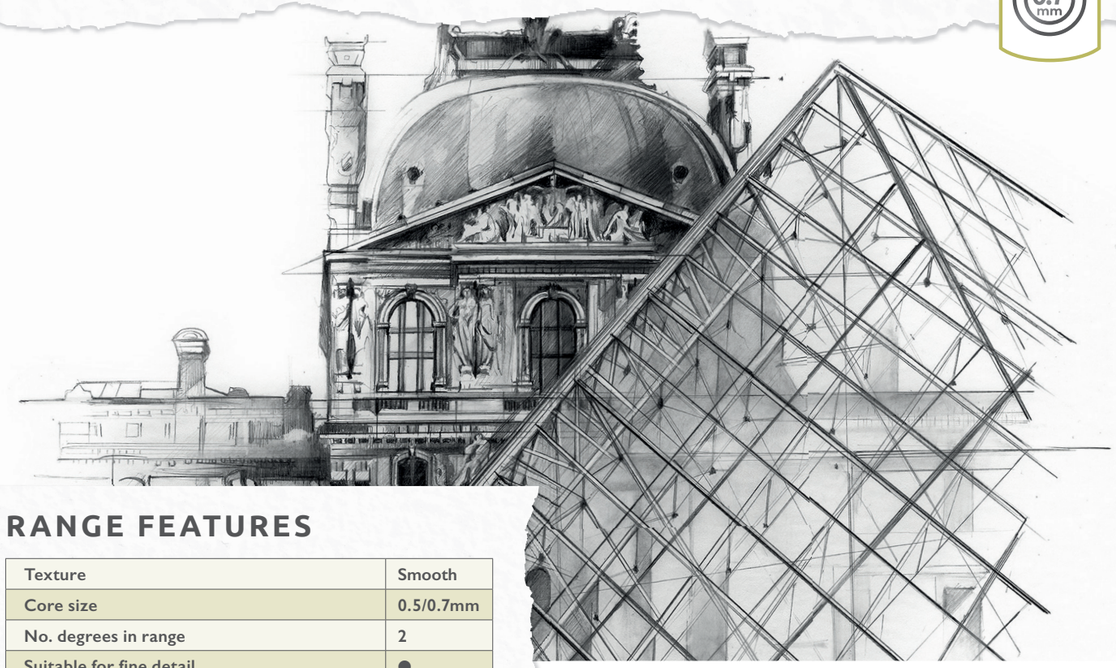

Graphitint's muted colours make it perfect for my drawings, from autumnal landscapes to portraits, in a palette of warm and cool tones. With a smoother, waxier feel than a conventional graphite pencil and a dash of subtle colour, Derwent Graphitint are my go-to sketching pencil, with a water brush kept on hand to help dissolve the Graphitint into washes.

Suitable for fine detail	●
Blendable	5
Erasable	4
Layering	5
Point strength	4
Premium metal barrel	●
Retractable pocket-safe nib	●
Rigorously tested graphite, to ensure the highest tensile strength across both the 0.5mm and 0.7mm grades	
Control and greater consistency, ensuring perfect laydown every time	
Elegant design and premium metal finish with a concealed push button eraser	
Available in blisters	

Ultra fine sketching with a high quality metal barrel.

Derwent Precision mechanical pencils have a premium full metal body, perfect for maintaining grip and balance. Ideal for sketching and drawing, the 0.5mm and 0.7mm sets contain 1 mechanical pencil, a refill pack of 15 HB leads and 3 replacement erasers. The graphite leads have a strong point for extended use and minimal breaking. Up to five leads can be placed into the pencil barrel at one time. The smooth laydown of graphite makes the pencil perfect for fine detail and cross-hatching techniques. Refillable leads and erasers are available separately.

IVOR HARRISON

ARTIST RECOMMENDED

Derwent are renowed worldwide for manufacturing some of the finest graphite pencils artists can use. It goes without saying that the graphite cores and replacement cores of the Precision pencils are of a high standard graphite that we have all come to know and love. With Derwent graphite, you know you're going to get reliability and quality in every pencil..

The metallic body of the Derwent Precision sports a stylish black gloss finish, trimmed with chrome nib, lapel clip and end cap, making the entire body an aesthetic beauty for anyone to carry.

Perhaps the most important feature of the Precision is the metal retractable sheath that extends with the click of the end cap, revealing the graphite. It's an important feature because so many mechanical pencils in this price range have static sheaths for the graphite. These tend to either break or rip clothing if the pencil is placed in a pocket. With the Derwent Precision, everything is tucked away beautifully when not in use meaning you can return to your pencil time and time again.

All I can say is thank you, Derwent, you have done it again, a wonderful product for artists, students, business person about the city or academics, the Derwent Precision fits them all.

PREMIUM METAL BARREL

DERWENT GRAPHITONE PENCILS

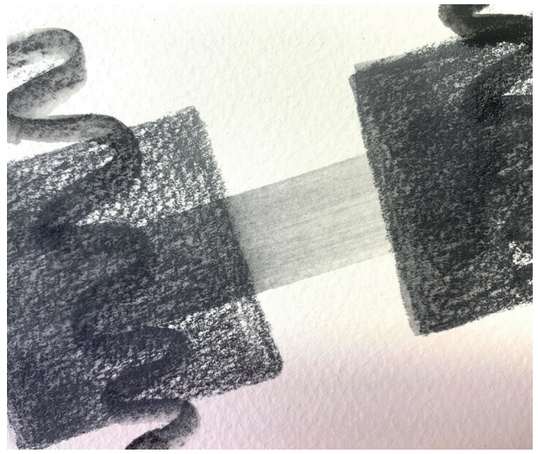

Pure compressed graphite sticks for quick coverage.

Amazing! No wood casing just pure water-soluble graphite in a stick! There are so many things you can do with Derwent Water-soluble Graphitone; you can use it like a pencil but the real fun begins when you peel off the wrapper! Use the stick whole or break it into chunks to create broad sweeps of tone quickly, then just add water and watch the graphite dissolve into softness! You can choose from 4 wash strengths; from light to a very dark wash.

DANIEL MARTIROSSIAN

ARTIST RECOMMENDED

The Sketching Pencils are a wonderful tool for creating an array of different mark making and tonal variations, extremely effective in my portraits. Whether they are sharpened for intricate details or blunt for smoother pencil marks, Derwent Sketching Pencils help me capture the likeness of my sitter. They emphasise the subject's nuances, conveying their personality, ultimately enlivened by this material's top-quality graphite.

39003

0700836

Essential graphite shades for sketching.

Sketching is all about being loose, free and easy, and Derwent Sketching pencils couldn't be easier to use; just 3 simple degrees HB, 2B and 4B, to cover all your sketching needs. They have a wide strip so you can quickly rough-out a loose sketch, or capture a passing cloud before it disappears! Once you've done that you can sharpen your pencil to a fine point to add the all-important detail.

High quality traditional graphite pencils, from 13B to 9H.

Derwent Graphic pencils contain the finest graphite to create a smooth and graduated line, strong to the core. Highly lightfast, they have a soft laydown of colour that removes easily with an eraser or putty rubber. Derwent Graphic has one of the largest choice of graphite shades available in the market with 24 consistent degrees from 13B to 9H. Ideal for expressive sketches and portraiture or detailed illustrations.

LOTTE PHILIP

ARTIST RECOMMENDED

Derwent high quality traditional graphite pencils, are ideal for my portraiture work. This is my go-to sketching pencil as this set provides all that I need to create sharp intricate details, blend seamlessly, easily erasable and buildable for the most realistic finish. Not only this but these graphic pencils are highly lightfast so you can ensure your drawings longevity in quality. For me, this is the perfect pencil!

Unique blend of charcoal with colour.

Charcoal's black, right? Wrong! Meet Derwent Tinted Charcoal – charcoal with just a hint of colour. These pencils give you all the good points of charcoal pencils; they can be smudged and blended easily, you have great control and there's less mess, plus you get colour with a beautiful element of charcoal 'blackness'! 24 tints to add a little colour to your life!

ANNE CORLESS

ARTIST RECOMMENDED

My creative process has developed whereby I prefer to use the same art materials on my art journeys that I use back in the studio. The Derwent Tinted Charcoal pencils are one of my favourite sturdy, 'multi-purpose' pencils that go everywhere with me! The marks made can vary from delicate fine lines (using the pencil on its tip), to wide sweeping laydown of tone (using the pencil on its side). Adding water to the charcoal pencil marks on the paper leads to a whole other world of creative possibilities. The colours work well for my artwork of the natural world. I would be lost without them!

Fine grade charcoal in a pencil - clean to hold and use.

Often used for life studies, charcoal can be considered very traditional. However encasing it in wood, you'll have something much more contemporary - Derwent Charcoal pencils. They will give you great control over your drawings but keep all those traditional charcoal effects that you love, with less mess.

HELEN CARTER

ARTIST RECOMMENDED

I love vibrancy in my artwork and the Inktense Pencils really deliver bright and bold colours that are brilliant when used dry but come alive once activated. Mixing my colours dry on the page, to create soft transitions is perfect as a base for more detailed work on top. I love that I can build the intensity or subtly change a colour without re-activating the layers below.

An innovative formulation that acts like ink, delivering intensely vibrant colours that dry permanently and do not wash out, for exceptional layering.

Derwent Inktense Pencils are intensely vibrant, watersoluble pencils that have been formulated to dry permanently, offering exceptional layering capability without dissolving previously dried layers of vivid colour. Colours are highly-pigmented and can be used dry, or mixed with water which is when the colour becomes even more intense. The colours retain vibrancy after drying, creating ink-like effects. Derwent Inktense is highly versatile and can be applied to many porous surfaces including ceramic, wood and fabric Suitable for use on paper and fabrics for a wide range of fine art and craft projects.

The beauty of watercolour within a pencil.

Combine the control of a pencil with the subtle beauty of the watercolour medium. Great to use and you can mix them with water to create interesting colour flows. They're not as bright as Inktense so they're ideal if you like to do more subtle paintings. Of course, you can use them dry and because they have such a soft texture you will find them easy to blend and layer. Watercolour is not permanent like Inktense, so once the colour is dry you can re-wet it and move it about again.

KERRY BENNETT

ARTIST RECOMMENDED

I am mainly a watercolour artist, using large washes and looseness, but I also like to create detail. This is when the Watercolour pencils come in, allowing me to pick out lights and darks, and being able to blend effortlessly with water, or even when starting a watercolour painting. If I do not wish to leave pencil marks I will use the Watercolour pencils for drawing. A great complimentary tool to have in my watercolour kit.

JESSE LANE

ARTIST RECOMMENDED

These lightfast pencils are Derwent's first oil-based pencils. The firmness of the lead is a good balance between soft and hard. It can make a fine point without breaking immediately, while still maintaining a bit of the smoothness of a creamy, soft pencil. The pencils themselves have a classy appearance with a varnished, bare wood. The neutral tone allows the coloured ends to stand out, making it easier to quickly locate colours while working. What I love about the Lightfast colour selection: there are colours that are almost, but not quite, black. I find this super helpful when creating subjects fading in and out of shadow. I also enjoy the mid-tone colours for skin-tones.

Also available:
2305693 Lightfast Pencils 100 Wooden Box

Superior, 100% lightfast pencils – won't fade for up to 100 years.

Derwent Lightfast Pencils have been formulated to be 100% lightfast. The revolutionary core is resistant to prolonged colour change ensuring artwork will not fade for 100 years under museum conditions. Tested under the harshest conditions to internationally recognised standards, this premium range of oil-based pencils offers an incredible range of colours not seen in other lightfast collections.

LF - Lightfastness rating

Lightfastness refers to the chemical stability of a pigment under long exposure to light. Made from the finest raw materials and the purest pigments, all colours comply with internationally recognised lightfast testing standard ASTM D6901. A scale of 1 - 5 is obtained with values 1 and 2 considered to be highly lightfast.
Colours will not fade at these values for up to 100 years under museum conditions.
None of our products are tested on animals. However, we cannot guarantee that some of our raw materials are not tested on animals.

2306557

Soft, thick-core pencils with a creamy texture and a nature-inspired colour palette.

Highly pigmented with colours inspired by the natural world, the Drawing pencils are perfect for capturing a variety of subjects, from wildlife and landscapes to portraiture.

Crafted in the UK, the soft, creamy texture makes blending and layering effortless helping artists of all levels achieve a smooth finish, whilst creating depth and texture with ease.

The range of colours includes yellows, soft purples, blues and greens, which gives artists a more versatile palette, inspiring them to create art that celebrates the endless inspiration of the world around us.

JESS PRITCHARD

ARTIST RECOMMENDED

When drawing, it is important to have reliable pencils which blend perfectly together on paper and that's exactly what the Drawing pencil range does. With tones perfect for animals, portraiture and landscape, the creamy application of these pencils allows for an even finish even when layering multiple colours..

Achieve fine detail and a smooth and even laydown with one special pencil.

Derwent Procolour pencils are the perfect combination of a strong point and a smooth, effortless laydown, delivering beautiful, effortless blendability. Wax formulaton glides like an oil while delivering incredible covering power. These pencils have a strong core which retains a sharp point for fine detail while minimal chipping and dusting keeps work clean and smudge-free. Reproduction print colours are true to the original binders, meaning there is no scan glare when creating professional copies of your work.

TIFFANY BUDD

ARTIST RECOMMENDED

As a professional artist and also miniaturist I aim to stretch the boundaries of colour pencil. Using Procolour really assists with this as working so small, the tip has to remain sharp and smooth, whilst keeping an intense and luscious colour. Procolour manages to do all those for me, which is it's why my go-to colour pencil product for miniatures. The range of colours are great, as bold colour is also an integral part of my work.

Bold, ultra soft colour for smooth coverage.

Derwent Coloursoft are highly versatile colour pencils with a soft, velvety strip for the quick, dense application of bold vibrant colour. The enhanced formulation makes them highly blendable, allowing an infinite spectrum of rich colour to be created. Coloursoft can be used for a wide range of drawing styles, from bold landscapes to detailed illustrations, portraiture and fashion design.

CLAUDINE O'SULLIVAN

As colouring pencils are my main tool, I expect a lot of different capabilities from the ones I use. For me, the most important things are colour vibrancy, ability to blend and sharpness for detail. Coloursoft pencils tick all of these boxes!

Firm point and extensive colour range for detailed light layering.

Derwent Artists pencils have been the choice of professional artists since 1938. They have a highly pigmented core which creates a smooth and rich colour laydown. The larger core is ideal for creating broad, expressive strokes, while the strong point can sustain layering and blending techniques. Artists pencils are ideal for a wide range of drawing styles; from bold landscapes through to more detailed illustrations, and are available in an extensive range of 78 colours.

MALCOLM CUDMORE

ARTIST RECOMMENDED

I build up tone and colour with a lot of cross-hatching and like to work on fairly smooth surfaces. I like the individual colours and marks that I use to be evident in the finished work and, with these pencils, I feel I have a great deal of control over how much colour is put down at any time. Derwent Artists pencils are perfect for me - the range of colours is superb, the barrels are a good size and very comfortable for sustained use - especially as my work can take some time to complete!

Shimmering metallic colour, outstanding on black paper.

Derwent Metallic pencils are shimmering, highly metallic pencils that blend beautifully together to create vivid and striking metallic effects, particularly on dark paper. With an intense metallic formulation that heightens the appearance of the colour, the shimmering pigments and strong core produce brilliant definition and rich colour application. Suitable for a wide range of fine art and craft projects.

2305598

SAMANTHA NORBURY

Derwents Metallic pencil range are my "go to" pencil when I'm looking for that something extra to add to my drawings. I love the shimmer effect it gives to the wings of my drawing of a humming bird and with their soft core they are easy to lay down and blend. A perfect pairing with Derwents Black Mixed Media paper.

The beauty of fine grade pastel within a pencil.

Derwent Pastel pencils have a unique fine chalk texture which creates a beautiful laydown of soft colour. Pastel pencils are ideal for creating detailed drawings and sketches and are easy to blend. Pastel is a naturally water-soluble medium and can be used with water to create light washes. Ideal for portraiture and life studies, Pastel pencils are highly pigmented and are available in a range of 72 colours with minimal dusting.

MARTIN AVELING

ARTIST RECOMMENDED

Derwent Pastel pencils are ideal for both loose and detailed work - the soft nature of the pastel strip makes blending easy, allowing me to tackle nature's extensive colour palette with added confidence. Being able to use the same pencil for detail ensures consistency across my artwork, and a realism which satisfies my perfectionist tendencies! In my humble opinion they are second to none for drawing wildlife in particular.

Vibrant blendable colour with a smooth laydown.

Derwent Chromaflow pencils are highly pigmented for striking work, these pencils have a vibrancy to the colours, so will stand out well when used on black and mid tone paper. Chromaflow is also erasable so it is possible to create highlights in work. Premium core strength pencils that handle pressure when sharpening and in use. Enjoy consistent, reliable quality, every time.

KINSEY LANE

ARTIST RECOMMENDED

These pencils are so smooth and creamy and blend together with ease. The consistency allows me to softly build up color and also allows me to add pressure to burnish without scoring into my paper. My work focuses around vibrant colors and Chromaflow has an excellent color palette with a good balance of vibrant colors and neutral tones. The pigments of these pencils are very saturated. Chromaflow has the softness to create the initial foundation blending in a piece and the durability to create fine finishing details. In the past I have used two separate pencil lines to accomplish these two tasks, but now I am glad there is one pencil that can do both!

2306162

Water-soluble, vibrant colours that dry permanently for exceptional layering. Draw, paint, cut or grate in XL format for broad coverage.

Derwent Inktense XL Blocks feature a versatile, water-soluble, ink-like formulation with vivid, richly coloured pigments that intensify when activated with water. Offering significantly more vibrant washes that traditional watercolour paint. Each block contains a high volume of formula, equivalent to 8 pencils, that dries permanently allowing you to layer without dissolving previous applications.

The strength and body of these chunky blocks makes them highly versatile, suitable for all sizes of artwork, especially for broad coverage on large scale art pieces. Use them whole for broad strokes and expressive markings, or break them into pieces and grate into powder for textures and detail. Used dry, the block has a smooth texture and can be used for techniques such as blending, layering and hatching. Watercolour techniques include, wet on wet, wet on dry, dry on wet, splattering, spraying and mixing.

Create bold and agile marks on a variety of surfaces, tried and tested to be effective on paper, fabric, ceramics, wood and other porous materials, for a wide range of fine art and craft projects. Will stay in place on fabrics when hand washed in cool water (below 30 degrees), with no harsh detergents.

JAKE SPICER

ARTIST RECOMMENDED

The Inktense XL Blocks feels like the natural evolution of the Inktense range, adding a new dimension of scale to the preceding pencils, blocks and pan sets. Used dry, the size of the XL Blocks, encourages expansive and playful mark making but it is in combination with water that I've most enjoyed using them. Laying colour down on the page dry and liquefying the marks, drawing onto wet paper with the end of the block or painting from the blocks as if it were a giant watercolour pan all elicit different effects. Combining the XL Blocks with the other media in the Inktense range opens up a whole new world of colour!

Permanent when dry - doesn't wash out like watercolour. Layer up intense vibrant colours.

Derwent Inktense Blocks are intensely vibrant, water-soluble blocks that have been formulated to dry permanently, offering exceptional layering capability without dissolving previously dried layers of vivid colour. Just like the pencils, colours are highly-pigmented and can be used dry, or mixed with water which is when the colour becomes even more intense. The colours retain vibrancy after drying, creating ink-like effects. Once dry, the colour is permanent and you can work over the top of it. Derwent Inktense is highly versatile and can be applied to many porous surfaces including ceramic, wood and fabric. Suitable for use on paper and fabrics (ideal on silk and cotton), for a wide range of fine art and craft projects.

JEDIDIAH DORE

ARTIST RECOMMENDED

Inktense Blocks are the most unique of art materials. They are fun to use, perfect in size and shape, and allow for a great variety and versatility of marks and methods. Any medium allowing me to draw in detail like a pencil or pastel, make broad textured swipes like charcoal or chalk, and paint while having both the characteristics of vibrant colored ink or watercolor like washes, will always be an important part of my location and studio work.

DANIEL MARTIROSSIAN

The Derwent Tinted Charcoal XL Blocks are tremendous for producing an array of colourful effects and tonal variations. The tinted charcoal palette helps me add coloured details and muted shades to my portraits, especially effective for highlighting certain features, such as the nose. The muted colours also convey a more earthy quality in my drawings, which is emphasised when blending the colours, subtly evoking more of my sitter's character.

ARTIST RECOMMENDED

2306177

Specially formulated blend of soft charcoal tinted with colour in XL format for broad coverage, bold marks, agile lines and smooth smudging.

Derwent charcoal tinted with colour, for a variety of earthy shades, including purple and green charcoal. The large, naturally water-soluble and highly versatile block is soft in texture delivering smooth smudge effects that can be manipulated over a large surface area. Each chunky block has a large volume of formula, equivalent to 8 pencils. It has been designed with the strength and body to fit comfortably in the hand, giving optimum control. Achieve broad strokes and expressive marks when using the blocks whole, or break into pieces and grate into powder for textures and detail. Used dry, the blocks have a smooth texture and can be used for techniques such as blending, mixing and smudging.

Specially formulated, water-soluble blend of smooth graphite, tinted with colour in XL format for broad coverage, bold marks, agile lines and powder textures.

Derwent Graphitint is specially formulated graphite tinted on colour, for wet and dry use. The unique formulation combines graphite and vibrant pigments to create rich, yet muted shades of watercolour blocks. With each block features a large volume of formula, equivalent to eight pencils. The size and structure is designed to fit comfortably in hand for optimum control. The highly versatile, large, block can be used for agile, expressive mark making on all sizes of artwork. Use whole for bold strokes and broad coverage, break into pieces or grate into a powder for detail and textures. Used dry, the smooth texture of the Graphite delivers consistent laydown and used wet, the colours can remain rich or be watered down. Once dry they have a matte appearance.

TONY HOGAN

ARTIST RECOMMENDED

The size and shape of Graphitint XL Blocks make them easy to hold for those whose grip is not as pronounced as others, whilst providing all a unique product for creating a vast range of interesting marks. Large areas using the side of the blocks can be laid down with fine detailing and interesting marks made using the sharp edges. The subtle muted colours give me atmospheric works of art.

DANIEL MARTIROSSIAN

The Derwent XL Blocks are extremely practical for creating a range of broad marks and striking effects, particularly for my large-scale portraits. Whether the charcoals are used for smudging edges to create a blurry effect or for sharp strokes to emphasise facial features such as the eyes, Derwent XL Blocks help me capture the likeness of my sitter as well as emphasise the subject's nuances to portray their persona.

IAN HODGSON

ARTIST RECOMMENDED

Incredibly versatile, XL Blocks are capable of creating a wide range of textures and effects, from subtle blending, sensistive work through expressive mark making, to the densest of tones and shading. These blocks respond beautifully to working with rubbing techniques, manipulating and working back into the graphite with an eraser. An absolute pleasure to use, the chunky graphite blocks have opened up exciting new possibilities from my art practice and I can't get enough of them!

2306195

Smooth Graphite in a range of degrees from Hard to Onyx dark in XL format for broad coverage, bold marks, agile lines and powder textures.

Derwent Graphite XL Blocks in a range of degrees, from Hard to Very Soft and Onyx Dark, with a smooth texture that delivers a consistent laydown. With a size and shape that has been designed to fit comfortably in the hand, the blocks are highly versatile and can be used for expressive mark making. Break into pieces, grate into a powder for detail and textures, or use the block whole for broad strokes and bold, agile marks. Ideal for all size artwork, especially for coverage on large scale art pieces. Each block contains a high volume of formula, equivalent to eight pencils. Use for techniques such as mixing, splattering and painting.

Strong and chunky.

Derwent Compressed Charcoal is a chunky block of pure charcoal. It's great for using with our other charcoal products or try it on its own for wide sweeping strokes using its side or the end for finer lines. If it's really fine detail you're after try our Derwent Charcoal pencils and for just a hint of colour there's Derwent Tinted Charcoal. What a great family! Compressed Charcoal Blister of 6 contains: 2 x Light, 2 x Medium and 2 x Dark.

DERWENT COMPRESSED GRAPHITE BLOCKS

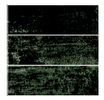

Natural Graphite in block form.

Natural graphite was first discovered in the Lake District and now it's your chance to discover Derwent Natural Graphite blocks! They're brilliant for creating big dramatic pitures whether you use them flat or on their edge. Blending them couldn't be easier, use either your fingers or a paper stump if you prefer. You've got three grades to choose from: soft, medium or hard, and if that wasn't enough, they're naturally water-soluble too!

2306243

2306244

An innovative formulation that acts like ink. Intensely vibrant colours, and exceptional layering.

Derwent Inktense paints are an intensely vibrant, water-soluble paint, that have been formulated to dry permanently. The paint range offers exceptional layering capability without dissolving previously dried layers of vivid colour, unlike traditional watercolour. Just like the pencils, colours are highly-pigmented and can be used dry or mixed with water which is when the colour becomes even more intense. The colours retain vibrancy after drying, creating ink-like effects. Once dry, the colour is permanent and you can work over the top of it. Derwent Inktense is highly versatile and can be applied to many porous services including, ceramic, wood and fabric. Suitable for use on paper and fabrics (ideal on silk and cotton), for a wide range of fine art and craft projects. This paint set is ideal for travel and use outdoors with everything needed to 'paint on the go'. Includes 12 highly lightfast Inktense paint pans, a mini waterbrush and mixing palettes.

NEIL WHITEHEAD

ARTIST RECOMMENDED

The Inktense Paint Pans form part of my essential artist and urban sketching kit. They react beautifully to water and I use them in my everyday sketchbook, in my workshops and in my largest gallery exhibits. The densely packed pigments deliver the colour, vibrancy and energy so characteristic of my art. They also last an exceptionally long time - great value for money.

2306249

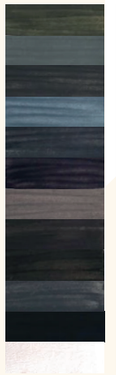

Specially formulated tinted charcoal, delivers tonal hues in a light wash.

Enjoy the inimitable quality of charcoal art with a twist. Derwent's uniquely formulated Tinted Charcoal paints are water-soluble. Adding just a hint of colour to the charcoal base, this palette of 12 deep, muted tones provides a high level of creative control with a white pan for highlighting. Each colour quickly and easily mixes, creating atmospheric and expressive results, with a matte, textured finish. Blend colours wet, apply in layers and lift, smudge or draw over when dry. This compact, self-contained set contains 12 Tinted Charcoal paint pans, mixing palettes and a mini waterbrush.

ROBERT DUTTON

ARTIST RECOMMENDED

Derwent have done it again - created another fantastic and versatile art medium! In the past the only available charcoal for artists to use to express their ideas was black. Not anymore! The twelve subtle water-soluble Tinted Charcoal colours are unique in tone, colour and consistency. Presented in a handy pan set, each colour quickly and easily mixes so you can create all sorts of expressive, moody and dramatic subjects, quickly, at different sizes in a really engaging and fluid way. I personally love the way each subtle colour has a unique, natural granular texture to them when dry, creating expressive landscapes and seascapes. The paint pans last a long time and gorgeous tints and further colours are created when the rich, lightfast pigments of colour are washed over one another. Once dry they can be drawn and combined with other Derwent mediums in all sorts of exciting new ways, or easily manuipulated when dry. A really exciting medium and one I welcome into my studio to be used time and time again, either on its own or with other drawing and painting mediums. What a great set to elevate my work on an altogether new level!

2306242

Specially formulated tinted graphite, delivers rich colour and granulated effects.

Derwent Graphitint paint pans contain a unique blend of graphite with a hint of colour to create subtle muted tones with a graphite sheen. This range is ideal for mixed media work. Muted coloured paint pans consist of warm and cool tones, delivering fine graphite particles that settle into the paper grain, to create a myraid of effects. Apply on cold pressed watercolour paper, to bring pools of granulations and passages of tone and colour. The subtle and naturally muted colour palette is ideal for urban and natural landscapes when used with Derwent Line Makers, or expressive art. Contains 12 Graphitint paint pans, a mini waterbrush and mixing palettes.

JILL WINCH

ARTIST RECOMMENDED

This is a truly wonderful Derwent product, so useful in creating the delicate washes of colour required for a lot of my work. As a botanical artist I love to paint lots of seedheads, sunflowers and poppies to name just a few. The paint palette can be used to achieve the most delicate of colours, through to a more robust range by adding more layers of this very versatile product.

2306245

Specially selected vibrant and muted colour tones, in a variety of textures to wash over permanent line work.

This compact, curated collection contains versatile greys and blacks along with highly pigmented colours, including six of Derwent's most loved Inktense colours. These paints can be dissolved for subtle washes and unlike traditional watercolour, washes of vivid Inktense paint can be applied without dissolving previously dried layers. Four Graphitint colours provide muted tones and the set is completed with two neutral lighter shades. The black Line Maker pens featuring the finest quality 0.3mm and 0.8mm Japanese nibs, are perfect for versatile linework.

JEDIDIAH DORE

ARTIST RECOMMENDED

I'm honoured to have been given the opportunity to experiment with the Derwent Line and Wash Paint Pan Set. For several weeks of drawing on site, in the studio, and even on the streets of NYC, I have been loving how wonderful this set is; it's the perfect size for on the go art. When I first opened the set, I was immediately drawn to the beautiful family of colours and tones. Natural colours are a perfect palette for urban drawing and painting on location. Colours like Mango, Poppy Red, Port, Payne's Grey, and Meadow are just some of my favourites that I normally have to mix primary colours in other paint sets to create. The unique arrangement of colours mix together effectively when painting and look elegant and refined. The colours capture the essence of urban landscapes, dynamic NYC settings and even natural scenes. I'm so happy with what I have been able to illustrate in both my location drawing and reportage art with this set. The Line and Wash Paint Pan Set is the set I've been waiting for!

2306248

Specially selected paints and pencils in natural colour tones for life and tonal studies.

A curated, natural and monochrome mixed media collection, perfect for creating landscape, portrait and tonal studies. Includes seven Inktense, two Graphitint, two Tinted Charcoal and one Pastel colour, resulting in a muted range of 12 pans. A Derwent Drawing, Onyx and Graphic B pencil are included for expressive sketching and form drawing. This compact set also includes a mini waterbrush and mixing palettes.

JAKE SPICER

ARTIST RECOMMENDED

The Shade and Tone set is an incredibly versatile set. The variety of different pan types allows me to create a really wide range of textures within a muted colour palette and the drawing materials in the set compliment the pans. I'm not a confident watercolourist, so this has also been a great way to start to use water-soluble media more in my work. I'm a particular fan of Graphitint pans particularly the Graphite Grey, which can be erased once it has dried - I'm looking forward to using the set in a new series of portrait studies.

2306246

Shimmering metallic paint, effective on light and dark paper.

Striking on both black and white surfaces, the Derwent Metallic Paint Pan Set includes 12 unique shades that mix beautifully to create a full spectrum of metallic colour. Extra fine metallic pigments give a reflective glint, maintaining their shimmer once dry. Apply in a creamy opaque strokes, to layer and blend on the page. Suitable for a range of fine art or craft projects. Contains 12 Metallic paint pans, a mini waterbrush and mixing palettes.

HELEN CARTER

ARTIST RECOMMENDED

The metallic paints are creamy, shimmery and great for adding a little unexpected shine to my art. The twelve colours are reflective on both dark and light surfaces, giving me plenty of options, and they can be mixed like any other watercolour to create more unique shades. They're perfect for handlettering and embellishing, but I love to use them on top of vibrant Inktense as a shiny accent, or underneath colour pencils for a subtle glimmer.

2306247

Delivers translucent to creamy, opaque washes of soft colour.

Soft, refreshing opaque coloured paints in pastel shades. Derwent's uniquely formulated pastel shades paints are soft and playful. These colours layer up in thick, opaque layers allowing the colour to dry as a bright, matte finish, adding dimensions to illustrations. Alternatively, these dreamy, contemporary shades can be applied in light washes for a pretty and light finish with a slight opacity to it, or used with our Inktense and Metallic paint sets to create dramatic effects.

ZOE JAMES-WILLIAMS

The Derwent Pastel Shades Paint Pan Set has become my creative companion on the move. Its soft, dreamy colours, ranging from coral pink to cool turquoise and stormy greys, are perfect for my sketches of dancers backstage and rehearsals. The compact size and water brush are incredibly convenient for my artistic endeavours. This palette excels in capturing the ballerina's tutu and iridescent stage lighting, enriching my artistic journey.

Expertly developed for a consistently ultra-smooth finish.

Derwent's newest addition to the Paint range – Watercolour Paint! Expertly formulated with fine art quality ingredients and lightfast pigments to deliver an ultra-smooth, translucent wash. The Watercolour Paint pan delivers significant performance of smoothness and consistency between colours, preventing uneven results.

Providing a full spectrum of colour, with 24 highly pigmented unique shades. Suitable for a range of craft and fine art projects, whether a beginner to watercolour or experienced fine artist. A portable and compact paint pan, that is available in sets of 12 and 24 and includes a mini waterbrush and mixing palette.

ALYONA SEVINCLI

ARTIST RECOMMENDED

Watercolours are the most joyful medium! As the brush glides over the paper you can create smooth translucent washes or let a drop of saturated colour fall into still wet watercolour to create stunning blossoms and textures. Sometimes watercolour has a mind of its own, which makes it an exciting tool to paint with. Mostly I love vibrancy when it comes to watercolour, for a visually impressive colour pop!

Free flowing, permanent, fineline pens made with the finest Japanese, break resistant nibs.

Derwent Line Makers are free-flowing fine liners that deliver consistent, smooth, opaque lines. Ideal for both drawing and writing, they contain permanent, fast drying pigment ink, with intense colour which dries quickly and will not move once dry. Ideal for a variety of mixed media techniques, water-soluble media such as Derwent Inktense can be layered over the top without affecting lines already on the page. Engineered using the highest quality Japanese, break resistant nibs, ranging in size from a a super-fine 0.05 to a bold 0.8 (black only).

TERESA ALLEN

ARTIST RECOMMENDED

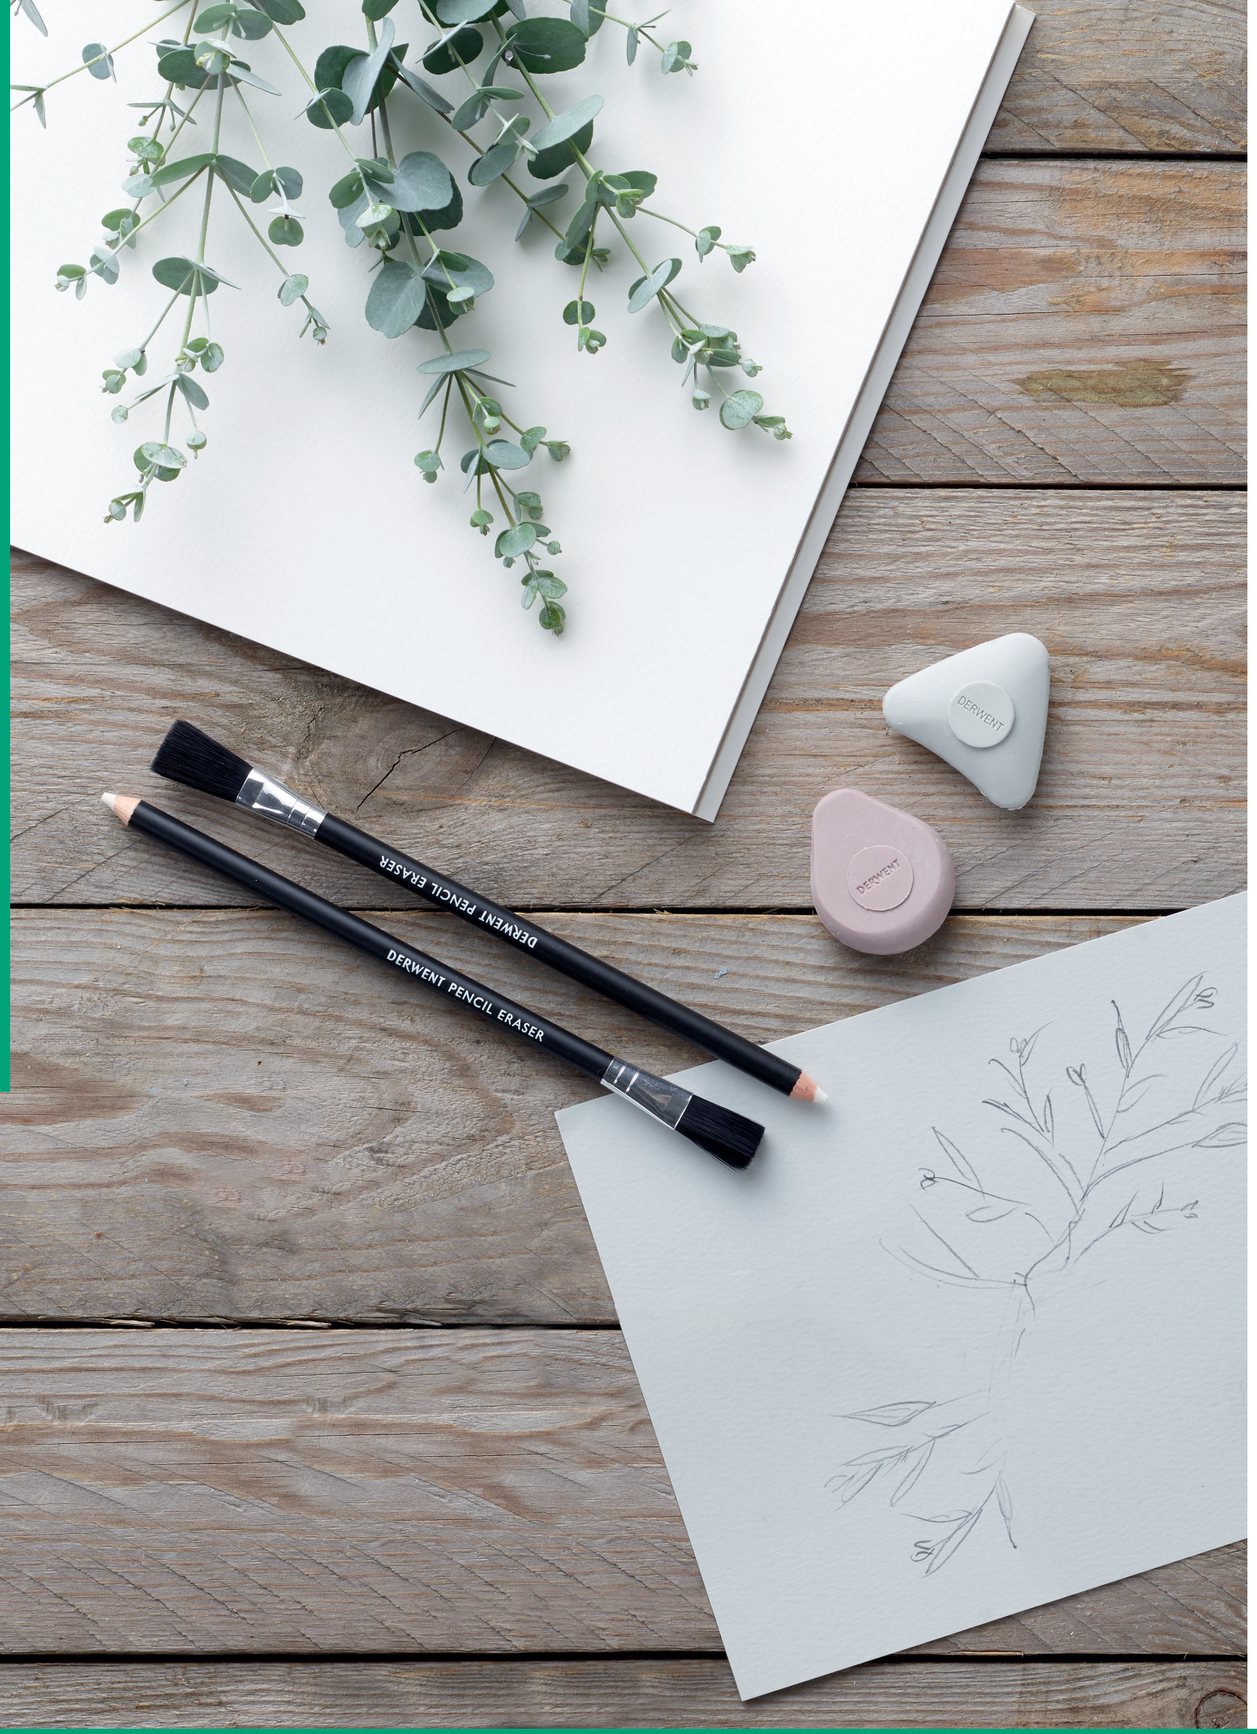

I love how versatile the line makers are, I use them from journal writing to artwork embellishments. The different nib sizes are perfect for adding a mix of depth and detail into one artwork. The 0.1 creates a beautifully delicate line which contrasts fantastically with the more robust 0.5. You can create thinner and thicker marks with each pen depending on your application method.

DERWENT SKETCH PADS & BOOKS

SKETCH PADS

Our popular heavyweight sketch pads are available in white paper and are perfect for pencil work and light washes. The slightly textured surface is ideal for holding pencil pigments, allowing effective layering of colours. The range features a wire-bound spine and 30 sheets of 165gsm (110lbs) acid free paper. Available in A3, A4 and A5 sizes.

A4 Portrait 2300139	**A3 Landscape** 2300141
A5 Portrait 2300140	

BIG BOOKS

These wire-bound sketchbooks have a bumper stack of 86 perforated sheets, ideal for sketching and drawing. Featuring 110gsm (75lbs) acid free paper and a hard wearing black vinyl cover, the range is available in A4 and A5 sizes.

A4 Portrait **2301607**	
A5 Portrait 2301608	

BLACK PAPER

Suitable for dry or water-soluble mediums, this deep black paper is perfect for a variety of art and craft projects using Derwent Lightfast, Procolour, Metallics and Graphitint collections. An elastic strap and hard wearing matt black cover keep the book secure. The range features a wire-bound spine and 40 sheets of 200gsm (135lbs) acid free paper. Available in A3 and A4 sizes.

A4 Portrait 2300379	**A3 Landscape** 2300381

SKETCH AND STORE BOOKS

Designed to accommodate extra paper and additional items, these wire-bound sketchbooks have wider rings, an elastic strap to keep loose sheets in place, and an expanding pocket at the back. The range features 56 sheets of 165gsm (110lbs) acid free paper and a hard wearing black vinyl cover. Available in A3, A4 and A5 sizes.

DERWENT SHARPENERS

1. SUPER POINT MANUAL SHARPENERS

Designed to sharpen pencils to the optimum super fine point. Extendable front plate features self feeding mechanism which stops when a superb point has been achieved and no further sharpening is required. For pencils up to 8mm in diameter. Includes sliding tray reservoir and desk clamp. Available individually, box packed.

2302001 Super Point Manual Desk Sharpener

2302000 Super Point Mini Manual Sharpener

* Large (9-12mm)/Small (6-8mm)

2. BATTERY OPERATED TWIN HOLE SHARPENER

Compact battery operated sharpener suitable for both large and small diameter pencils*. Durable blades can withstand hours of sharpening and shavings are neatly caught in a transparent reservoir. Includes broken tip remover. Requires 4 x AA batteries (not supplied). Available individually, box packed.

2302332 Battery Operated Twin Hole Sharpener

2302353 Replacement Sharpener

3. MANUAL TWIN HOLE SHARPENER

IMPROVED DESIGN

Derwent Twin Hole Tub Pencil Sharpener, featuring a dual size metal sharpener with high quality blades, that are long lasting to create a consistently smooth and sharp point. With hole sizes of 11.5mm and 8.25mm for optimum compatibility with most artist pencils.

2306123 Manual Twin Hole Sharpener

4. PASTEL AND CHARCOAL SHARPENER

IMPROVED DESIGN

Specifically designed for use with the more fragile Derwent Pastel pencil and Derwent Charcoal pencil mediums. Also suitable for sharpening other large diameter pencils such as Derwent Drawing and Artists pencils. Available in CTU trade packs of 14.

0700234 Pastel and Charcoal Sharpener

5. METAL PENCIL SHARPENER

Designed to fit all Derwent ranges. Sharpens pencils to a fine point. Available in CTU trade packs of 20.

0700233 Metal Pencil Sharpener

DERWENT ERASERS

BRUSHES

TECHNIQUE BRUSHES

An assortment of brushes for different painting techniques. Each brush is designed to produce different marks, allowing the artist greater creative possibilities.

Available in blister pack of six.

2302003

PUSH BUTTON WATERBRUSHES

Assorted point and chisel tip waterbrushes for a range of strokes. Ideal for use with water-soluble paints and pencils. Portable and convenient for indoor and outdoor use. Durable nylon fibre tip holds shape and point for continuous use and comes with a protective cap. Large water barrel with push button for easy to control water release. Comfortable handling and leak proof.

2305816 Push Button Waterbrushes - Assorted 4 Pack Blister

2305823 Push Button Waterbrush Medium Tip Blister

WATERBRUSHES

Portable, leak proof and easy to clean. Each features a non-drip valve for easy to control water flow. Fine, Medium and Chisel tip heads are easily distinguished by number so you can grab the one you need.

2301975 Waterbrush 3 Pack

2301760 Medium Waterbrush

DERWENT DRAWING AIDS

BLENDER AND BURNISHER

BLENDER

A soft colourless pencil that allows you to blend two or more colours together to create a new colour. At the same time it physically mixes and smoothes the pigments so individual strokes and hard edges are softened. Available individually and in blister pack of four.

BURNISHER

A hard colourless pencil which when used over layers of pigment provides a rich polished finish. Available individually, in blister pack of four, and tub packs.

2301756 Blender Pencil

2301757 Burnisher Pencil

2301774 Blender & Burnisher Blister 4 Pack

BLENDER PEN

Designed for use with wax-based pencils, the blender pen allows the artist to blend away pencil lines, creating smooth and even colour. Effective with both colour and graphite pencils. Available in twin pack of two nib sizes; 2mm and 4mm.

2302177 2 Blender Pens

PAPER STUMPS

Made from compressed rice paper and with a point at each end, paper stumps make blending charcoal and pastel much easier. Once the stump gets dirty and the point wears down they can be easily cleaned and re-pointed using a sandpaper block. Available in a blister pack of 3; small, medium and large (ranging from 5.5mm diameter to 10.5mm).

2300561 Paper Stumps Blister 3 Pack

SCALE DIVIDER

Ingenious drawing tool designed to transfer measurements from life to paper; ensuring accurate proportions every time. Scale pictures in ratios from 4:1 to 1:4. Folds neatly away and will slip easily into a backpack for easy travel. Available individually in blister pack.

2300580 Scale Divider

PENCIL EXTENDER

Designed to prolong the life of your pencil. Available in blister pack of two sizes; small for standard size pencil barrels, and large for pencils such as Derwent Inktense and Artists.

2300124 Pencil Extender

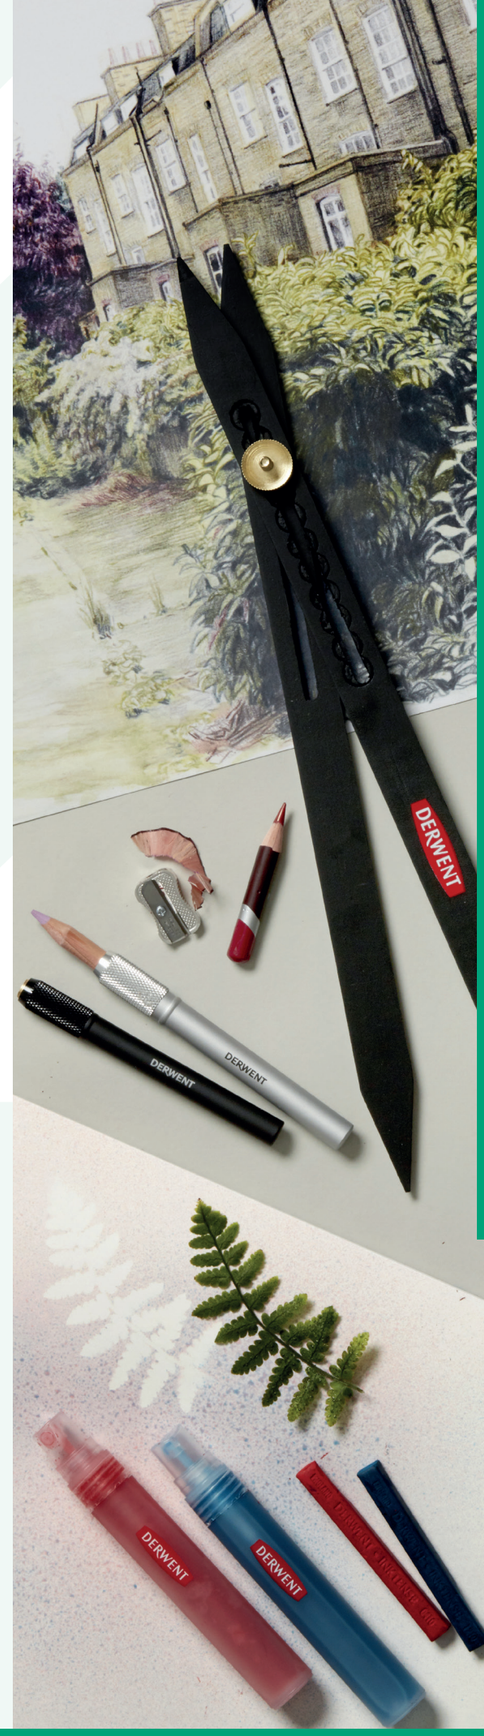

SPRITZER

Adds a new creative dimension to water-based projects. Spray water directly over water-soluble drawings to create interesting textures, colour runs and dribble effects. Dissolve colour pigment and fill the Spritzer to spray straight onto an image. Available individually in blister pack.

2300592 Spritzer

ACCESSORIES

DERWENT STORAGE & TRAVEL

1. PENCIL TIN

Smart, robust, double layer pencil tin. Features removable inner tray. Holds at least 18 pencils.

Available individually in hanging bag.

ACADEMY SKETCHING PENCILS

Sketching Pencils come in a range of hard to soft graphite. The higher the H numbers the harder the graphite, and the lighter tone it will create. B pencils are softer and make darker, richer tones. Use a variety of tones in your drawing to create depth and dimension. Blend soft areas by scribbling a B grade pencil on scrap paper and rub with cotton wool. Then transfer to your drawing for soft areas of shading such as shadows and clouds. Remove highlights with an eraser and blend smaller defined areas with a paper stump. Avoid smudging with your hand by placing a spare sheet of paper underneath.

DERWENT ACADEMY COLOUR PENCILS

Academy pencils are ideal for colouring, drawing and illustration, are easy to use and retain the high standards expected from Derwent.

ACADEMY COLOURING PENCILS

RANGE FEATURES

24 blendable colours
Made with natural wood barrels and rich, creamy pigments
Round barrels give freedom of movement to your drawing technique
Conveniently packaged in a tin storage case

2301937

2301938

ACADEMY WATERCOLOUR PENCILS

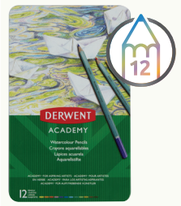

Clean and portable, watercolour pencils make the perfect tool for college, home and outdoor use without the need for water pots or mess. Washes are easily achieved by lightly shading the paper and using a waterbrush over the top to turn the pencil into watercolour. For layers of colour allow each previous layerto dry before adding the next. Interesting effects can be achieved by drawing into a wet paper surface or previous wash with a dry pencil, as well as wetting the pencil tip with water and 'painting' with the pigment in the core of the pencil. Watercolour pencils prefer a cartridge paper or a hot press watercolour paper with just enough texture to grip the pigment without becoming too textured to allow smooth shading and details.

RANGE FEATURES

24 water-soluble colours
Made with natural wood barrels and quality water-soluble pigments
Hexagonal barrel offers a secure grip
Conveniently packaged in a tin storage case

LAKELAND

LAKELAND 126

DERWENT LAKELAND

Derwent Lakeland pencils have been a firm favourite with generations of children since their conception in the 1930s. They combine consistent high quality with excellent value for money. From chunky, easy grip pencils for toddlers to ultra slim pencils for detailed work, Lakeland is suitable for children aged between 4 and 10 years old.

MERCHANDISING SOLUTIONS

MERCHANDISING 130
POINT OF DISPLAY 132

DERWENT MERCHANDISING

FREE STANDING UNITS (FSUS)

A modern modular merchandising solution to show Derwent as a stand out premium brand in retail stores.

Easily adaptable to suit different stock and store environments, the system allows easy category navigation for consumers and an engaging experience at the shelf edge.

Merchandise the FSU using a range of shelves, hooks and point of display (POD) options to showcase a selection of tins, blisters and loose stock.

The Derwent FSU is packed in three clearly marked outer boxes for transit and features standard British AC power plugs. Please source suitable electrical adapters for your region.

POINT OF DISPLAY UNITS (PODS)

All PODs can be fixed to our FSU using the pegboard attachments included (also available separately), or used as stand-alone counter displays.

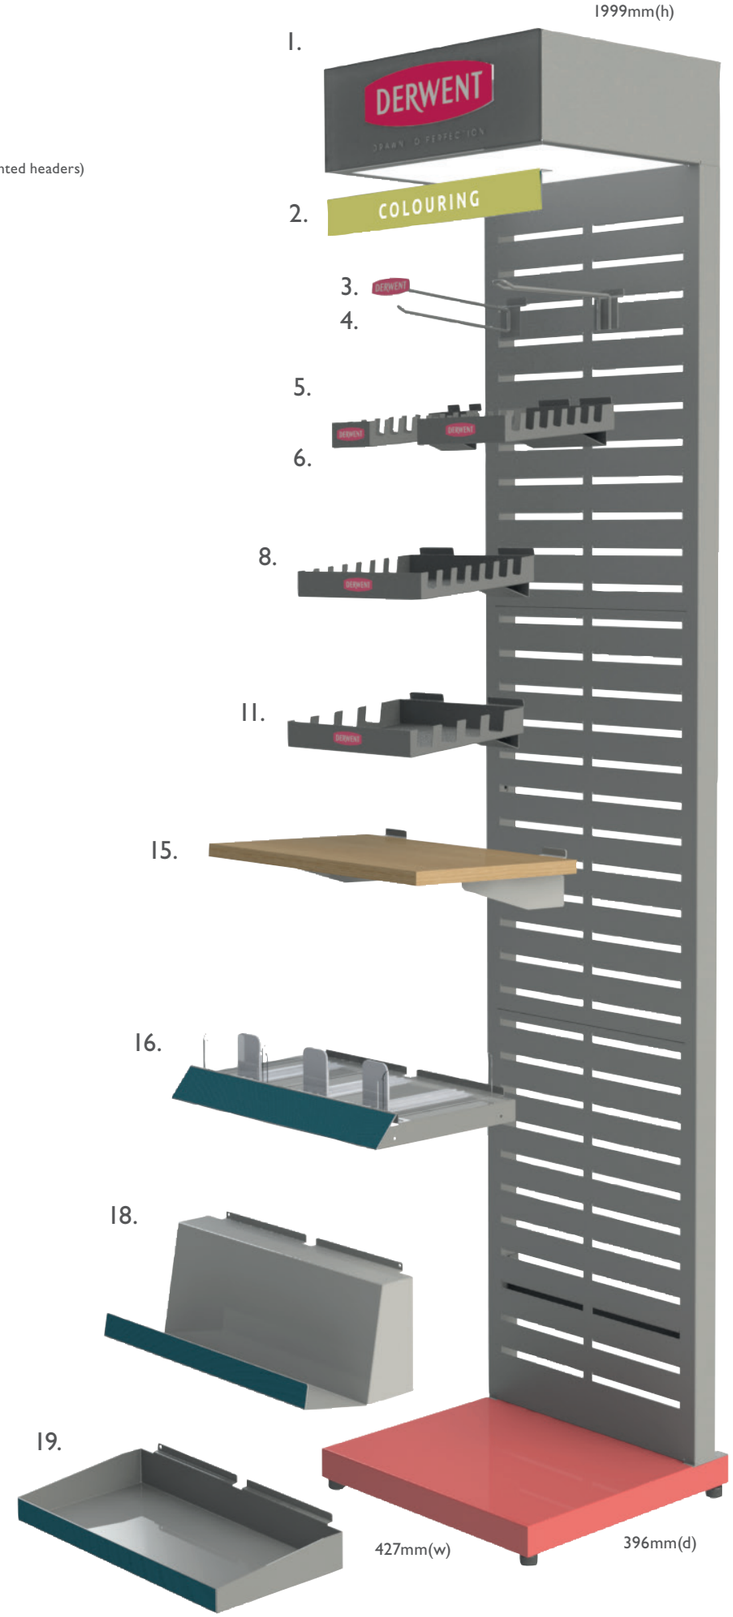

Product information panels provide detail of product features and benefits of each range. Test and try pads are also positioned on each display (refills available separately 2302759).

Bespoke merchandising and point of sale solutions available on request.
