Product Description

Automate your coil binding with the most popular production system of its kind: the GBC DigiCoil Color Coil® inserter. It is easy to set up, runs a full range of coil sizes, and sets the pace in your production environment. The DigiCoil system reliably binds books up to 33mm thick and can easily handle assorted stocks, index tabs and oversized covers. Binding is made even easier with the DigiCoil's auto run feature for continuous processing of books.

Features

- No tools required for the setup of each job
- Output stacker allows one operator to continue working while another removes finished documents
- Features push-button operation on a convenient user interface
- Auto-run feature feeds and crimps coils automatically for quick production of large jobs
- Accomodates coils from 8 mm to 33 mm
- Takes up little floor space and can be moved easily
- All standard GBC punches accommodate the 4:1 oversized .2475 die set required for this machine
