### Product Description

The new Ultima® 65 revolutionizes laminating for educators. Conveniently compatible with both EZload® film and standard film, this laminator uses AutoGrip shafts and an innovative pivoting feed table to make film loading easier than ever before. Included AutoSpeed and other user-friendly features simplify laminating for users, making this laminator the perfect choice for common classroom laminating jobs, like posters, flash cards, maps and more.

### Features

- EZload® technology uses color coded end caps to take the guesswork out of film loading and eliminates the hassle of putting film on complicated film shafts
- Pivoting feed table eliminates the need to remove the table when replacing film, further simplifying the film changing process
- AutoGrip shafts make removing and adding standard film easier than ever
- Maximum document width of 27" is perfect size for laminating classroom charts, certificates, artwork and more. Accepts standard GBC® NAP-Lam® I film or Ultima® 65 EZload® film up to 3 mil thick.
- One-touch AutoSpeed automatically adjusts the laminating speed for you, ensuring quality lamination on every project
- Additional stop button on the back of the laminator allows you to stop the machine while watching the job's output
- Built-in trimmer eliminates the need for scissors and footage counter lets you quickly tell how much of the roll remains to track film usage
- Slow forward and reverse functions work while the machine is open to easily clear jams and ensure worry-free laminating
- Visual ready alert light lets you know when the machine's 10 minute warm-up is complete. Safety features include attached protective shield, auto standby mode after 2 hours without use and auto shut off after 3 hours without use.
- Laminator comes with a limited 90-day warranty. 21"L x 35"W x 14"H

### Specifications

- Colour Group Gray
- Core Diameter 1"
