# GBC 5031TS Laminator

1711718

#### Product Description

A 31"-wide, production heat shoe laminator in conjunction with thermally heated nip rollers provides proper heat at higher speeds. Includes many labor-saving features such as edge slitters and job memory recall. Laminates film to 10 mil thick. Use as a stand-alone unit or combine with the 5031 Feeder and 5031 Cutter for maximum productivity. Designed for commercial printing or in-house production environments, it is six times faster than office laminators and can handle paper stock ranging from 20 lb. bond to 24 pt. cover stock. For best results, use with GBC Nap-Lam® I, Nap-Lam II and Hi-Tac™ films.

#### Features

- Film speed: 4 to 35 feet per minute
- Maximum film width: 31"
- Film gauge: 1.5 mil to 10 mil
- Accommodates 10" diameter rolls for fewer film changes on long runs
- Three slitters allow edge and center slitting of 2-up jobs
- Adjustable excess film rewinds prevent scrap from winding onto pull rollers or cluttering the floor
- UL listed safety features include interlocking safety shield to protect operators from heat shoes
