

GBC 2080WFt

1715939

Product Description

Top heat laminator for pressure sensitive and mounting applications, handles film up to 79".

Features the industry's first truly safe electronic eye utilizing GBC's patent-pending Dynamic Braking System. The nip roller stops immediately when the beam is broken to provide a safe system without the inconvenience of a safety shield.

The GBC 2080WFt has a maximum temperature of 300°F to handle specialty products such as AccuShield, the liquid coating alternative.

Features

- Mode button selects speed, pressure and heat.
- Master dial sets precise measurements.
- Pressure and mounting settings for the heat roller are automatically controlled by an electromechanical system.
- Extended feed table makes it easier to feed prints.
- Foot pedal allows hands-free operation.
- Built-in bi-directional manual cutter accommodates left and right-handed operators.

Specifications

- **Core Diameter** 1" and 2.25"
