

Formax 346 Touchscreen Tabletop Folder

1729450

Product Description

The FD 346 Document Folder is a fast, dependable and easy-to-use solution for virtually all folding applications. The color touchscreen control panel uses internationally-recognized symbols in place of text, making it easy for anyone to use. Six popular folds are clearly marked on the fold plates: simply slide the fold stop to the desired fold. Additional adjustments can be made with the fine tuning knobs at the end of each fold plate for precision folding.

No need to stand and watch over this folder: operators can load up to 500 sheets in the hopper, set the fold plates, press start and walk away to attend to other important tasks. The FD 346 will fold the 500 sheets in no time and hold the finished pieces on its patented telescoping conveyor system. For easy batch processing, users can choose the Formax AutoBatch program. Simply input a specific number of sets, number of sheets per set, and the delay between sets, then press start. It's that easy.

The optional multi-sheet feeder allows up to 4 sheets stapled or unstapled to be folded at one time through a dedicated feed system with its own side guides and skew adjustment system.

The FD 346 is capable of processing paper up to 18" (457mm) in length and up to 12.25" (311mm) in width giving it the flexibility to handle a variety of paper sizes. The fold plates are easily adjusted for custom jobs, and operators can fold in virtually any configuration that requires only two folds. A cross folding guide is included, which adds to the FD 346's flexibility allowing for additional folds in a second pass.

The innovative touchscreen, simple set-up and operation make the FD 346 an ideal solution for any church, school or small business that is cost conscious but requires the versatility and dependability of a more expensive folder.

Features

- Color Touchscreen Control Panel: Graphics-based and designed for easy, walk-up use
- Fast Processing: Large jobs are processed quickly at speeds of up to 15,500 pieces per hour
- Drop-In Feed System: Three roller drop-in feed system produces dependable feeding of forms with no fanning required
- Adjustable Stacker Wheels: Stacker wheels can be manually adjusted to neatly and sequentially stack different paper sizes and fold types
- Pre-Marked for Six Standard Folds in Common Paper Sizes: Fold plates are clearly marked for 6 popular fold types in letter, legal and ledger paper sizes
- Custom Folds: Fold plates can be easily adjusted for custom fold setup
