### Features

- Load film into your laminator using patented, lightweight AutoGrip shafts or traditional steel shafts, which utilize thumb screws and core chucks.
- Keep your documents bright and bold. Glossy film has a shiny finish that helps emphasize colors, making it the perfect choice for photos, signs and posters.
- Choose the right film for your job. The 1.5 mil thickness provides protection while retaining flexibility. Each roll is 18" x 500' and is wound on a 1" core. Pack includes 2 rolls.
- NAP I film is the most common type of roll film and is ideal for everyday projects. It is compatible with most thermal roll laminators, including the GBC Ultima 65.
