Features

- GBC NAP II Laminating Film 12" x 200' is wound on a 1" core and is compatible with 12" and larger thermal roll laminators that accept 5 mil film, including the GBC Catena 65 and Catena 35
- Choose the right film for your job. The 5 mil thickness provides semi-rigid protection. Select 10 mil if you need something protective and fully rigid.
- NAP II film is typically used for projects with heavy ink coverage or delicate items
- Keep your documents bright and bold. Glossy film has a shiny finish that helps emphasize colors.
- Load film into your laminator using patented, lightweight AutoGrip shafts or traditional steel shafts, which utilize thumb screws and core chucks.
