Unit quantity	1

### Case information

Depth	16"
Width	10"
Height	5"
Gross weight	14.00lbs
UPC#	50033816084099
Unit quantity	2

### Shipping Information

Country of origin	TH
Minimum Order Quantity	2
Lowest possible unit	Case

### Features

- GBC NAP II Laminating Film 25" x 200' is wound on a 2.25" core and is compatible with 25" and larger thermal roll laminators that accept 5 mil film, including the GBC Catena 65 using the 2.25 core adapter
- Choose the right film for your job. The 3 mil thickness provides protection while retaining flexibility. Select 5 mil if you need something protective with more rigidity.
- NAP II film is typically used for projects with heavy ink coverage or delicate items
- Give your documents a professional finish. Matte film does not reflect light, which creates a polished look.
- Load film into your laminator using patented, lightweight AutoGrip shafts or traditional steel shafts, which utilize thumb screws and core chucks.
