Features

- Protect your documents from wear and tear. Use laminating carriers and pouches produce clear and crisp results for all of your everyday laminating needs.
- Keep your laminator clean and jam free. Carriers help guide documents smoothly through the laminator and help prevent glue from sticking to heat rollers.
- Easily load your document and thermal pouch into the carrier. Simply lift the flap and place your pouch inside the carrier for complete protection.
- These carriers are ideal for menu sized documents and can be reused multiple times. Pack includes 5 carriers.
- Compatible with all thermal pouch laminators, including the GBC HeatSeal 700. Carriers can protect laminating pouches of any thickness up to 10 mil.
