Product Description

Make laminating as simple as possible. Designed for lightning fast speeds and easy loading, GBC EZUse Speed Pouches are the best choice for quick and even lamination.

Features

- Create stunning results with impeccably accurate and easy to use lamination pouches. Documents will remain bold with the UV protection, which prevents fading and discoloration.
- With alignment guides and mil icons directly on the pouch, you can eliminate unnecessary waste. Perfectly align your documents and easily select the best laminator setting.
- Arrows on the static-resistant pouch clearly indicate loading direction. The arrows, alignment guide and mil icon all disappear after lamination is complete for crystal clear viewing.
- Get more done in less time. When used with a 12" laminator, these speed pouches can be fed into the machine on the longer sealed side, which reduces processing time by 22%.
- Pouches are compatible with any thermal laminator, including the GBC Fusion 7000L and GBC HeatSeal H700, sold separately.
- The 3 mil thick pouches provide solid protection with versatile flexibility. These 11 1/2" x 9" pouches are perfect for letter sized documents. Pack includes 100 pouches.
