Features

- Heat assisted top roller for superb lamination performance
- Laminates graphics up to 61" wide
- Capable of laminating at speeds up to 20 feet/minute
- 1 1/2" manual nip adjustment allows for precise operation and accommodates most substrates
- Roll-to-roll operation (from bottom unwind) to accommodate applications including vehicle wraps
- 14.28 lbf/in (2.5n/mm) line pressure for superior cold lamination
- Lightweight cantilever and drop-in supply shafts with auto-grip for easy loading of materials in tight spaces
- Auto-grip upper take-up shaft for winding release liners
- Exclusive 'stay-put' swing up feed table keeps table up, making media handling and set-up a snap
- Comprehensive safety system with emergency stops and self-checking safety eyes
- Foot switch for hands free operation
- Ergonomic touch pad control panel
- Included roll trough to keep rolled prints in place before and during lamination
- Optional easy-in feed table
