Kensington®

Kensington® VeriMark™ Fingerprint Key Supporting Windows Hello™ & FIDO U2F for Universal 2nd Factor Authentication

67977

Product Description

Innovation, quality, and trust have made Kensington® the standard in device security for more than 25 years. Kensington is expanding that expertise to data security by introducing the world's first fingerprint security key to support Windows Hello™ and Fast IDentity Online (FIDO) universal 2nd-factor authentication (U2F) – the VeriMark™ Fingerprint Key. Engineered to provide simple, fast, and secure Windows logon and a seamless two factor authentication experience, the VeriMark Fingerprint Key protects against unauthorized access on compromised devices, while also offering unprecedented cybersecurity for today's cloud-based world.

Features

- Advanced Fingerprint Technology combines superior biometric performance and 360° readability with anti-spoofing protection, while exceeding industry standards for False Rejection Rate (3%) and False Acceptance Rate (0.002%).

- Universal Integration provides scalable, out-of-the-box access for Windows computers and platforms, including biometric login for Windows Hello™.

- FIDO U2F Certified to ensure seamless interoperability and meet 2nd-factor security key logon requirements for cloudbased service and software providers, including Google, Dropbox, GitHub and Facebook.

- Password Manager Compatibility supports popular tools, like Dashlane, LastPass (Premium), Keeper (Premium) and Roboform, to allow the fingerprint to authenticate and automatically fill in usernames and passwords for websites.

- Compact design easily attaches to a standard keyring for convenient portability.

Specifications

- **Operating system(s)** Windows
- **PDP Request Quote** No
- **Period of Warranty** Limited 2-year warranty
- **Device Type** Laptop
