

## SD5000T Thunderbolt 3 40Gbps Dual 4K Docking Station with 170W adapter - macOS Only

More speed, more power, limitless productivity

38232

### Product Description

For over 35 years, Kensington has been The Professionals' Choice for desktop productivity solutions. Continuously supporting the most advanced technology, Kensington has engineered the game-changing SD5000T Thunderbolt 3 Docking Station. Whether you're a video editor, graphic designer, content creator, gamer, or just someone who wants to simplify a 4K workspace, you get more — more speed, more pixels, more power, and more possibilities. Accommodating a single Thunderbolt 3 cable carrying up to 40 Gbps of data, which is enough bandwidth to simultaneously run two 4K monitors at 60 fps, while also providing up to 85 W of laptop charging, the SD5000T Thunderbolt 3 Docking Station is a power user's solution for hyper-productivity.

### Features

- Thunderbolt™ 3 Technology brings the speed and versatility of Thunderbolt to USB-C by allowing a single compact port to do
- it all – providing connectivity to Thunderbolt devices, billions of USB devices, and any display – all while supplying power
- 4K for Dual Monitors provides the crisp resolution, contrast and colour depth of Ultra HD simultaneously on two monitors (4096 x 2160 30bpp @ 60 Hz) via DisplayPort and a USB-C video adapter.
- 85 W Power Delivery to charge the host device (Host device must be designed to support Power Delivery for dock to provide charging)
- DisplayPort++ allows connection to 4K monitors via DisplayPort or optional passive adapters to connect to monitors with HDMI or DVI
- USB Ports/2.1A Charging Port extends productivity capabilities to peripheral accessories via one USB-C 5 Gbps port, and two
- USB 3.0 ports, one of which is a 2.1A charging port to power up a tablet or smartphone.
- Zero Footprint Mounting provides the option to attach the dock to the back of any VESA-compatible external monitor to accommodate space-challenged workspaces (mounting plate (K33959WW) sold separately).
- Daisy Chaining allows connection for up to 5 additional Thunderbolt-enabled devices for unparalleled productivity from a single Thunderbolt 3 port.
- Kensington Security Slot protects your technology investment via easy implementation of a cable lock from the No 1 brand in physical device security.
- Gigabit Ethernet Port provides a reliable 1 Gb wired networking connection between computers or the internet.
- 3.5 mm Headphone and Microphone Jacks provide quick access to plug & play accessories.

### Specifications

- |  |                                    |
|--|------------------------------------|
| • <b>Connection technology</b> Thunderbolt 3 | • <b>Power delivery</b> 85W        |
| • <b>Number of Screen Outputs</b> 2          | • <b>Operating system(s)</b> macOS |
| • <b>Video ports</b> DisplayPort++, USB-C    | • <b>Number of USB ports</b> 3     |
| • <b>Maximum resolution</b> 4K               | • <b>USB fast charging</b> Yes     |
