

Proximo™ Bundle - Bluetooth® Tracker Fob and Tag

K10001BLE

Product Description

Keep: Simply download Proximo App from App Store onto your iPhone and attach the fob to your keys. Now, the moment you move a set distance away from your iPhone, Proximo's Key Fob will alert you with a customizable alarm, making it all but impossible to lose your iPhone.

Track: Tired of misplacing your keys? With Proximo, you'll use your iPhone to track your keys, so you'll never lose them again. And once you have the Proximo Starter Kit, you can buy additional tags to keep track of up to 4 important items, like your camera, laptop bag, car, and much more. Each tag can be personalized with its own unique sound and photo.

Get Back: Can't find an important item? The Proximo App will automatically drop a pin on a Google map to show you where you had it last. As you move within range of a misplaced item, the proximity meter on your iPhone will work like a Geiger counter to help you hone in on its location, while the item's tag emits its unique tone. No more stressing over losing important items or wasting time searching for them. Let Proximo help you recover your lost iPhone, keys and more.

Features

- Proximo Starter Kit includes everything you need to track your iPhone, keys, and one additional valuable
