## Product Description

Today’s workplace demands the flexibility and portability of laptops. There is no easier way for that laptop to connect to a monitor or projector than with the VM1000 Video Adapter from Kensington, the trusted industry leader in productivity solutions for nearly 40 years. One end of the adapter plugs into your laptop’s Mini DisplayPort, while the other connects to the cable for the VGA port on a monitor or projector. You can use it to connect to the video equipment in a conference room for a presentation, as well as to your home or office monitor to improve your desktop experience.

## Features
