

MicroSaver® DS Ultra-Thin Keyed Laptop Lock

K64590US

Product Description

Ultrabook™ and MacBook® laptops are valuable business tools, and desirable for thieves, but they are frequently too thin for a standard cable lock. The MicroSaver® DS Ultra-Thin Laptop Lock has a sleek profile to fit thinner devices and a rotating head to eliminate awkward angles when inserting the key.

Features

- Tamper-resistant, disk-style lock provides near-impenetrable theft protection
- T-Bar™ Locking Technology attaches to the Kensington Security Slot™ found on most laptops
- Carbon steel cable is cut-resistant and anchors to desk, table or any fixed structure
- Register & Retrieve™ program allows you to order replacement keys
- Pivot and Rotate cable hinge creates great freedom of movement and eliminates awkward angles for key insertion
