Product Description

The ClickSafe® Master Coded Combination Laptop Lock offers effortless protection with just one click for the ultimate in physical security. The ClickSafe Security Anchor attaches to the industry-standard Kensington Security Slot. A 6-foot cable anchors to a desk, table or any fixed structure, and a keyless four-wheel combination offers 10,000 possible combinations. With the Master Coded solution, IT managers can reset an employee's code if it gets forgotten or the employee leaves the company.

Features

- ClickSafe® Lock provides one-step security after Security Anchor has been installed into Kensington Security Slot™ found on most laptops, increasing employee compliance
- Carbon steel cable is cut-resistant and anchors to desk, table or any fixed structure
- One-handed engagement
- Master Coded solution allows IT to reset forgotten codes
- Master Access solution allows IT to reset forgotten codes
- Attaches to laptop via the Kensington Security Slot found in 99% of computers
