

USB Port Lock with Square Cable Guard

Protect your USB ports, protect your data.

K67720US

Product Description

Reduce the risk of data leakage, data theft and unauthorised uploads with a software-free solution that physically blocks USB ports from unauthorised access. The Kensington USB Port Lock with Blockers has the ability to block multiple adjacent ports with one lock and allow continued secure use of authorized USB devices.

Features

- Minimise risk of unauthorised downloads by blocking USB ports
- Just plug into the USB port and push the button to lock. No technical experience necessary.
- Stop thieves before they start with a visible sign that you're being protected
- A USB Port Block used with a single USB Port Lock prevents access to adjacent ports with either vertical or horizontal orientation
- Physically protects valuable data without the complication, installation, maintenance, and upgrade costs of software
- USB port spacers provided to ensure secure fit
- Use cable guard to secure a wired peripheral connected to a neighbouring USB port (vertical & horizontal configuration)
