

Rugged Protection Band for SecureBack™ for iPad® 4th gen, 3rd gen & iPad 2

67817

Product Description

You've protected your iPad from theft with the Kensington SecureBack. Now protect it from damage too with the Rugged Protection Band for iPad 4th gen, 3rd gen and iPad 2. The Kensington Rugged Protection Band utilizes dual layer construction, providing the maximum level of protection, absorbing shocks and preventing damage. The vulnerable corners of your iPad receive extra protection and the raised bezel shelters the iPad's sensitive retina display from potential scratches. It fits your iPad perfectly and also works wonderfully with the Kensington SecureBack. Some threats to your iPad are big, such as drops and theft. Others are tiny: dust. The fact is, dust can do real damage to the sensitive electronics inside your iPad. Fortunately, the Rugged Protection Band protects against dust as well thanks to its built-in port covers.

But despite all of this protection, the Rugged Protection Band preserves access to all ports, controls, cameras and even the microphone. The tactile feel of the Rugged Protection Band also makes it easier to hold onto your iPad, so you're less likely to drop it in the first place. So protect your iPad with the ultimate protection against damage from drops, bumps and even dust — the Kensington Rugged Protection Band for iPad 4th gen, 3rd gen and iPad 2.

Features

- Protection against drops and damage for iPad 4th gen, 3rd gen & iPad 2
