Features

- LCD Display indicates temperature, speed and ready/wait status
- Silicone rubber rollers ensure timely clean-up
- Interlocking feed tray and magnetic safety shield ensure safe operation
- Designed for thermal or pressure sensitive film up to 10 mil
- Roller gap adjustment handles mounting boards up to 3/16" (5 mm) thick
- Rewind roller peels away pressure sensitive release liner
- Infrared heating coil distributes heat evenly and improves lamination quality
- 8 bit microprocessor temperature control guarantees fast response time
- Cooling fan helps produce smooth, flat output
- Intuitive preset temperature and speed settings for each film thickness
- Fine tuning override controls for both temperature and speed for variations in paper conditions
- Applications: Signs, Posters, Placemats, Photo Mounting, Event Graphics, POP Displays, Show Graphics, Presentations, Banners, Store Signage, Menus, Courtroom Graphics and more
