

Kensington

Wired Keyboard for iPad® with Lightning™ Connector

72447

Product Description

The education solution from Kensington that offers an easy way to meet Common Core Standards when conducting tests with iPad tablets. Designed for the iPad Air™ and iPad 4th gen, this Kensington Wired Keyboard features a Lightning connector that provides easy plug and play installation without any software or drivers and eliminates the need to pair the tablet and keyboard. Because it's wired, there's also no need for batteries or recharging. The full-size keys are highly durable and tamper-resistant so they're far less susceptible to popping off or getting pried up.

Features

- Full-sized domed keys for great tamper-proof, typing experience
- Plug & Play installation for easy setup
- Wired Lightning connection provides power
- Exceeds PARCC and SBAC privacy requirements
- 24.4-inch cable (62cm)
- Apple® MFi certified
